# Welcome to CAMH!

# Create some marks on the first page of the sketchbook.

(Go crazy, don't be shy!)

This will encourage you to take more chances with your work on the following pages.

**Find an artwork and sketch it from three different viewpoints.**

**Look for patterns around you.**

Look at the building, the floor, the ceiling, anything!

Fill this page with different patterns that you find.

How are each of your drawings different?

**Find an artwork, draw it but  
look only at the artwork, not  
at your paper.**

It's okay—your drawing won't be perfect.

When you look again, add anything you might have missed.

**Spend five minutes writing everything  
you can about the place you are in right  
now.**

Pay attention to all of your senses . . .  
except for taste—don't eat artwork!

**Write new titles for three pieces of artwork.**

**How are your imagined titles different from the titles chosen by the artist?**

**Find an artwork.  
Imagine the artist.**
